Gentlemen

I have the honor to acknowledge the Receipt of yr. Secretary's letter dated 13th Feby. by which I was desired to report for the information of the Governor in Council the names of the persons in this district who are considered to be disposed to support the Interest of the Company

2. From Broach one circumstance has short period of independence in the district cannot enable me to afford the most complete information regarding the feeling entertained by the Rajahs & great landholders towards the Company and their degree of responsibility attached to them which may be of use to the Superintendant -

3. Enclosed herewith I beg to show the names of the Zemindars in the Broach District and the amount of annual Peshcush

6. Whether the Vacancies happening to be made to the Landholders at large in lieu of the Common Land in the cases where the Land has been exhausted or become unfit for Cultivation by over flowing or otherwise? In what manner this subject was the Land to be made among the Landholders themselves and the Regulations to be observed, the Board having reason to know that the Changes hitherto effected in the Course of the Accounts have not always been strictly attended to by the Land holders themselves

At the Lands of the Head Inhabitants have been seen & planned the Vacancies happen to have been made to them

7. It is understood of ancient date that the Head Inhabitants collect their own Common Land, whether the Crops raised have been examined or not, that the Collectors meet to report to the Cutwarnam of their District the Common Land cultivated by means of the Inhabitants or of hired Labourers, or whether the Common Lands are usually divided by the Cutwarnam Clap of the Inhabitants of the Village?

To reply to this Question correctly, it will be necessary first to state to your Honor that a number of the Lands in this District is divided into what are called Salaries or shares, these are respectively known by Jesus, they vary from 8 or 10 to 40 or more according to the size of the Village, these shares are again subdivided into Poggas or

or sub divisions of those tho
are to receive no particular
number, shall be entitled to
a certain number of acres of
marsh land adjoining to their
respective land, and only such acres
shall be attached as the
Lessee can only cultivate
that one Lessee himself - the
remainder of the Farm to be left
vacant in readiness according
to the Agreement of the Land
of the Village, from the Lessee
Lessor in whose [illegible] has
the land to be Let - shall any
Lessee refuse to Cultivate
the Marsh land - the Lessor
can upon Engage others to
do so - on the most favourable
terms he can obtain - but
shall the Lessee's shall
to Cultivate the Marsh land
cannot agree reasonably
between as I said before the
regular Agreement which
was to be Let to the Lessee
but not the Marsh land

In Villages in the three classes and last divisions do not let the Native Rates & Customs must continue & their own lands on Cultivation to do it for them which greatly depends on the state of the Roads they may suppose to Cultivate

The Resumption of the Crown Lands & the carrying the Lands of the Government Estate to the Public Money, must, in the cases in which the Crown Lands and this Village Servants Cultivated their own Grain has been ceased them to pay a land tax for the land so Cultivated & become at last Regarded as Crops.
